

Performance Combo

The Performance Combo is the hall sound system built for big performances. It has all the necessary ingredients to give you the power and quality you can always count on. The amplifier works seamlessly with the speakers and the microphones to complement the performers and impress your audience.

You can

- Connect your Bluetooth and control the audio from across the room
- Play and amplify tracks on CDs, USBs, SD cards, smartphones, tablets, laptops
- Individually control all your input volumes
- Connect to two or ideally four speakers for an ideal sound distribution
- You can be set up and playing in seconds and is suitable for the large halls, aerobics classes, dance classes etc
