Rugged corner protection protects from damage when transporting. Also helps when you are stacking the external loudspeaker 430 placed on top.

*** Slot loading CD drive** CD-R, CD-RW and MP3 compatible.

Tuned and ported HDF cabinet for superior sound quality and bass punch.

Speaker grill

*** MP3 USB & SD card playback** easily navigate through folders and files.

Stereo Switch, turns the unit on/off

Aux input socket, this can amplify any external device with a headphone output easily, perfect for iPods, MP3 and Laptops

Independent Volumes for Aux in, Bluetooth, microphone, and CD/USB/SD

DC input can be used for charging the internal batteries or running the unit from mains power.

Bluetooth Audio Receiver to connect your device wirelessly

*** Optional extras**
CD/USB/SD are all in one module

Ideal Accessories

Extendable handle with three positions.

Carry handle one on each side, helps manoeuvring in and out of transportation or raising onto a tripod.

*** Variable speed** easily control the playback speed of audio on either CD/USB/SD. You can even adjust the speed of MP3 files.

Knobs and controls are protected by the surrounding barriers.

Bass & Treble controls to fine tune the tone of the output.

Master volume, turns the overall balance of microphones to CD/Line up and down with a single control.

Line out socket, to connect to another amplifier

An Extension Loudspeaker can be connected, giving you truly double the power when the internal stereo amp comes into full use.

Microphone, Connect a wired microphone

Top Hat for mounting a stand is located at the bottom of the 45000 series to give you a height that you want.

Strong trolley wheels can handle many different surfaces ideal for when you're travelling.
