

Built in loudspeaker for large rooms and sports halls, safe for pool side and has the ability to connect to many sources of audio and amplify an extension speaker. This unit is perfect for daily & continuous use, can be easily moved around and used by anyone when & where required without worrying about connecting to mains power.

Features

- Exceptionally loud & clear amplified playback of any speech or music.
- Each input type has its own volume control for simplicity of mixing, separate Bass & Treble controls.
- Mix & CD to external amplifier sockets
- Audio line in socket for iPod or MP3 amplification.
- CD, USB & SD card amplification & variable speed control.
- 3 wired microphone sockets 1/4" jack.
- 1 stereo headphone socket for set up (it mutes speakers when connected.)
- Compact and strong enough to take anywhere.
- Mains cable & power switch is fitted, carry bags are available to keep the unit & accessories safe.
- Rugged, reliable and very versatile.
- **Made in Great Britain**

2070 PA with variable speed CD/USB/SD player

You can

- Use this in rooms and halls, enabling a wire free microphone & 2 others to amplify voices from wired microphones or connect musical instruments (i.e. keyboard), or other external source (iPod / Mp3 player hi-fi, mixer desk, PA).
- Use the speed control to slow down the audio from CD/ USB/SD to give the audience time to listen to it so that learning dance, music or language is easier to understand.
- Connect extension speakers to this such as our 411F or our underwater speaker.
- Plug in an iPod or similar device or a laptop and amplify it. Great when you are presenting a slide show or presentation as you can talk over the sound track without raising your voice but still be confident of being heard clearly by all.
- Use the remote control functions of the CD player to give better control and flexibility of use.
- Obtain many different accessories to enhance and customise this unit to your exact requirements, such as stands, bags, microphones, etc. just call us and tell us what you need and we will advise the best parts & prices.

Technical Specifications:

Weight: 6.6Kg

Dims: 365(h) x 360(w) x 215(d) mm

Power Output: 65 Watts MPO (30 Watts RMS)

Current consumption: 250mA s/by = 0mA (Off)

2070/UHF Wireless receiver PA with variable speed CD/USB/SD player
